

Varenummer: 58SE40S1300G

Beskrivelse: Cylinder ISO15552 SE 40x1300-S-G Ø40-1300  
port 1/4 - med luftdæmpning

## Mål

|                 |            |                   |
|-----------------|------------|-------------------|
| A               | = 1459     | Slaglængde = 1300 |
| B               | = 54       | V = 16            |
| Boringsdiameter | = 40       | X = 3,5           |
| E               | = 33       |                   |
| HS              | = 24       |                   |
| K               | = M12x1,25 |                   |
| O               | = 1/4"     |                   |
| S               | = 54.0     |                   |
