

EWN.SST

Wing nuts

ELESA Original design

technical informations

Material

Glass-fibre reinforced polyamide based (PA) technopolymer. Resistant to solvents, oils, greases and other chemical agents.

Colour

Grey-black, matte finish.

Assembly

- EWN.SST-FP: AISI 303 stainless steel boss, tapped through hole, without cap.
- EWN.SST: AISI 303 stainless steel boss, tapped through hole, with cap.

Cap for EWN.SST

Technopolymer in Ergostyle colours, matte finish; supplied assembled, press-fit assembly, removable by a screwdriver. Available also as accessory sold separately (see caps table).

Features and applications

AISI 303 stainless steel, thanks to its high resistance to corrosion, allows the application of these wing nuts on machines and equipment in those sectors where laws or particular hygienic, climatic and environmental factors make it mandatory to use corrosion resistant materials.

Ergonomy and design

The slightly concave marks on the wings help to position the fingers in order to apply the maximum force when tightening.
