

INDUSTRIAL POWERISE IPR40

Summary

- Industrial specific requirements build on automotive quality standards
- Easy integration with internal controller or internal end switch
- Setting a new standard for acoustics performance
- Wide variety of back drive forces for the optimum ergonomics
- Pairs with Stabilus gas spring for managing heavy applications with a lightweight drive
- Slim inline design for minimized installation space

Characteristics

- Output force up to 5 kN
- Water proved (IP67) sealing
- Wide selection of connections
- 12 V or 24 V Power supply
